OBJECTIVE

AI & Data Science graduate with hands-on experience developing and deploying production-grade AI solutions. Highly skilled in Python, Large Language Models (LLMs), and Retrieval-Augmented Generation (RAG) frameworks. Adept at building autonomous agent workflows and scalable LLM-driven infrastructure.

EXPERIENCE

Forward Deployed Engineer **September 2025 - Present**
Target Dial

- Developed and engineered production-level autonomous voice and SMS agents utilizing the **Claude SDK** and **MCP (Model Context Protocol)** to automate complex enterprise lead qualification.
- Designed and optimized prompt-engineering schemas and routing mechanisms to handle live multi-source client context, boosting agent response accuracy to **92%**.
- Integrated contextual LLM orchestrations with backend systems (**Salesforce, GoHighLevel**) via REST APIs, replacing manual tracking workflows and saving **15+ hours** weekly.

Data Scientist Intern **May 2025 - August 2025**
Young Thames LLP

- Fabricated custom automated data pipelines to extract and process structured and unstructured relational datasets, reducing analytical reporting turnarounds by **30%**.
- Conducted statistical validation and optimization of database queries using SQL concepts to build accurate cross-functional dashboards.

PROJECTS

- Telecom Churn Analytics (Python & SQL):** Constructed end-to-end exploratory data analysis (EDA) workflows on large relational datasets. Designed complex SQL queries and data aggregations to transform tables for predictive modeling and trend analysis.
- Multimodal Language Assistant (LLMs & APIs):** Engineered an intelligent backend pipeline integrating Whisper and GROQ APIs via FastAPI. Optimized JSON payload structures and context windows to deliver structured multimodal interactions with an **85% feedback relevance rating**.

SKILLS

AI & ML	Machine Learning, Large Language Models (LLMs), RAG, Claude SDK, MCP, Prompt Engineering
Technical Skills	Python (Pandas, NumPy, Scikit-Learn), SQL, FastAPI, Git, N8N, REST APIs, JSON, Unix/Linux
Cloud & DBs	AWS (S3, EC2, Lambda), Oracle Cloud Infrastructure (OCI), MySQL
Core Competencies	Analytical Thinking, System Architecture, Technical Documentation, Problem Solving

EDUCATION

Madhav Institute of Technology and Science, Gwalior 2022 – 2026
Bachelor of Technology in Artificial Intelligence and Data Science *CGPA: 7.5 / 10.0*

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Foundations Associate** [!\[\]\(a43b62a38b6e2844e794f4301a08d3ba_img.jpg\)](#) **September 2025**
